## Wm. Kovach, M.L.A., States Near Future Will See Big Things in the 'Pass'

William Kovach, M.L.A. for the Crows Nest - Pincher Creek constituency, in his address to the public gathered at the Coleman celebration of Alberta's Golden Jubilee stated "The near future will see big things, new things in the Crows Nest Pass. We have something to offer in the near future. Rumors of big things happening, are going to happen and that we will be rewarded for our efforts."

He hoped that stability and security will come to the Crows Nest Pass. We have something to offer and we will offer in the near future. This has been the best news received in the town of Coleman for many a day.

Our sincere hopes and efforts rest upon these possibilities that something will be brought to this great area to bolster the working forces which have declined in the last two years owing to the drop in sales of coal from the mines in this area.

Mr. Kovach's speech has given a very uplifting feeling to Coleman citizens. In the last two years the working force of Coleman has dropped from around 1100 at the peak of employment to roughly 400 today. The mines have been working on short time due to decline in sales.

## Coleman High School Hold Sport Meet Jubilee Day

With cool winds and a cloudy sky Coleman youth and budding athletes staged what has been considered a very successful sport meet on Friday, Sept. 16, to commemorate Alberta's Golden Jubilee. With teachers and students supervising this event along with Mr. T. Collier an enjoyable time was had by all.

Following are the winners in the different events:

### Running: Broad Jump, (Boys 12-13) —

1. Tommy Bubniak, 13.6½ feet;  
2. Ken Woods, 11.8; 3. Joe Wavren-  
can, 11.5; 4. Leslie Peknik, 11.4.

Girls: 12-13 — 1. Valerie Kwan-  
nie, 11.8½; 2. Marlene Adloff, 10.1;  
3. Jane Dygdel, 10.3; 4. Betty  
Sanyshyn, 8.11½.

Boys (14-15) — 1. Taras Iwasiw,  
15.4; 2. Harold Hayshi, 13.4; 3.  
John Cousins, 12.8; 4. Carrie  
Horn, 10.

Girls (14-15) — 1. Nadie Wasil-  
iew, 11.8; 2. Dolores Fisher, 11.1;  
3. Sharon Kilgannon, 10.1; 4. Claire  
Goodwin, 10.1.

Boys (16-17) — 1. Steve Saloff,  
15.1; 2. Tony Penitch, 14.9½; 3.  
Hans Bramer, 13.9; 4. Joe Joseph,  
12.1½.

Girls (16-17) — Sandra Chal-  
mers, 13.2; Carol D'Amico, 12.4½;  
Ann Kerr, 10.6½; Pat Sanyshyn,  
10.2½.

High Jump Boys (14-15) — 1.  
Taras Iwasiw; 2. Harold Hajshii;  
3. Tom Plante.

Boys (16-17) — 1. Fred Milley;  
2. Steve Saloff; 3. Tony Penitch;  
4. Joe Joseph.

Running (60 yds) Boys 12-13 —  
1. Robert Franz; 2. Tom Bubniak;  
3. Gordon Nelson; 4. Joe Wavren-  
can.

Girls Running (60 yds.) (12-13) —  
Valerie Kwanie; 2. Judy May-  
nard; 3. Helen Balicky; 4. Sharon  
Kilgannon.

Girls (14-15) (100 yds.) — 1.  
Taras Iwasiw; 2. John Cousins;  
3. Bruce Fairbrother; 4. Tom Plante.

Girls (14-15) (100 yds.) — 1.  
Wilma Bodish; 2. Moire Smales;  
3. Vanda Cozzi; 4. Beverly Bond.

Boys (16-17) (100 yds.) — 1.  
Richard Cherney; 2. Steve Sa-  
loff; 3. Hans Bramer; 4. Tony Pe-  
nitch.

Open 220 yds. — 1. Richard  
Cherney; 2. Taras Iwasiw.  
Ribbons for 1, 2, 3, and 4 place  
were awarded to the winners of the  
events. Taras Iwasiw was present-  
ed with a trophy for most points of  
all age groups. Sandra Chal-  
mers and Valerie Kwanie receiv-  
ed trophies for highest points in

## Forestry Program Assn. Program Here Sept. 20 - 23

The Canadian Forestry Association have made arrangements to conduct conservation programs in the Pass schools on the following days: Cowley and Lundbreck schools, 9 a.m. and Lundbreck hall at 9 p.m., September 20th. Bellevue and Maple Leaf schools, 9 a.m., Hillcrest school, 1:30 p.m. and Hillcrest Miners hall at 8:00 p.m. September 21.

Blairmore schools grades 5 to 12 at 9 a.m., grades 1 to 4 and West End grades 1 to 5 and 7 at 1:30 p.m. Beaver Mines hall at 8 p.m. September 22. The Coleman school grades 1 to 3 at 9 a.m. Cameron school, grades 4 to 6 at 10:30 a.m. Main school pupils at the Roky theatre at 2 p.m. and for the Burmis area in the Burmis hall at 8 p.m. September 23.

The Alberta Forestry Association operates its forest conservation tour annually with the co-operation of the Alberta Forest Service.

The object of the tour is to secure public understanding and co-operation in the conservation of Alberta's natural resources of soil, woods, water and wildlife.

Sound films and lectures are used to put the ideas across. There is no charge of any kind.

## Coleman Tennis Club To Play Finals in Cup Competition

The exact date of the men's single final for the McGillivray Cup has not been set at press time. It will be played this week, with veteran Chick Roughhead opposing Jimmy Ewing.

In the Holy Cup Event for men's double Roughhead and Ewing defeated Kwanie and Ca-  
tanton to take the Cup.

For the Chalmers Cup in Ladies' Single Joy Kwanie defeated Alice Montalbetti to win this trophy.

separate age groups.

To complete the days event a ball game was played between Mr. Mascherin's Yanks and Mr. Kryczka's Indians.

Final score Indians 1, Yanks 17. Umpire was Steve Orooko, and according to my information he played for the other team. Well, Steve don't let them fool you if you had played for them you would have been a great guy. I myself have never seen or heard where an umpire was right, so let them shout.

## Presentation of Scholarships Sept. 22

Principal Horace Allen has announced that presentation of scholarships will be made in the High School auditorium at 3:30 p.m. on Thursday, Sept. 22. Invitations are being sent out to the parents of scholarship winning students, and that all interested parents of other school children are welcome to attend.

Grade 9 class will be awarded two scholarships by the B.P.O.E. Lodge of Coleman. Three scholarships in grade 10 sponsored by the School Board, Grade XI will receive awards sponsored by the Lions Club, Grade XII will receive (1) award sponsored by the OORP Lodge of Coleman.

## Coleman Jubilee Celebra- tion Held Friday, Sept. 16

Overcast skies and a cold west wind bringing threats of rain marred the celebration held to honor the 50 Golden Years of the Province of Alberta and the Senior Citizens residing in Coleman. With a Civic Holiday proclaimed from 12 noon on all business places closed shop and prepared to celebrate. Due to conditions beyond the control of the Coleman Collieries they were forced to operate and therefore the gathering at the ceremonies held in the Park were not as well attended as had been expected. The celebration not under way with a Sports Day for the school children from the age of 12 up in the Coleman Sports Field, at 1:30 p.m. At 4 p.m. dignitaries from the Town, Provincial Government and other organizations gathered on the Tennis court where a speakers platform had been erected with the Senior Citizens seated just to the west of the platform. Opening ceremonies saw the dedication of the Children's Playgrounds built by the Coleman Lions. This playground has entailed considerable effort on the part of all Lions and is indeed a credit to them and to the town. We doubt that when it's complete with grass and flowers that a finer one can be found in Southern Alberta.

Mayor Frank Abousafty got the Jubilee Celebrations underway on Friday, September 16th by presenting Jubilee booklets on behalf of the Board of Trade to Junior and Senior High School students. These booklets published two years ago to celebrate Coleman's Golden Anniversary was also presented to all the other students by their teachers.

Mayor Abousafty stressed the growth of Coleman in the past and the hope for better things in the future.

Later in the afternoon the official opening of Flummerfelt Park and the Lions Playground got underway. Bill Holyk, President of the Board of Trade, presented the Camp Shelter built by the Board to the Town of Coleman, stating that over 1000 tourists had made use of it and hoped this number would be increased in coming years. He also dedicated the shelter to the old timers. Mayor Abousafty accepted the shelter and thanked the Board on behalf of the town.

Horace Allen, president of the Lions Club, expressed his thanks to the tractor and truck operators and all those who had made the Children's Playground with swings, slides and a wading pool possible. He then introduced Mel Dunford, past president of the club, stating that it was through Mel Dunford's efforts that the Playground had gotten underway.

## Elks Stage Bingo Friday Evening

The Coleman Elks will stage their semi-monthly bingos starting Friday, September 23 in the Elks hall.

This will bring back those ardent bingo players to this popular pastime of last season. Bigger and better prizes are in the offering so I am told, and this should indeed prove very popular.

The Elks only recently staged a two-day carnival in the arena. Owing to the cold damp weather the attendance was not what was expected, but they were able to operate and make a small profit.

He is sincerely hoping that programs of this nature will continue to operate as recreation is sorely needed in our town.

Mayor Abousafty was presented with the Park Title by Mr. Dunford. The special document beautifully mounted and framed was inscribed by Arthur Graham of Coleman.

Mayor Abousafty accepted the title on behalf of town and praised the Lion's Club and Board of Trade for all their efforts.

The dedication prayer was then invoked by Rev. Dykes of Anglican Church.

The Tourist Shelter erected by the Coleman Board of Trade was also dedicated on this momentous occasion, this is another achievement that can go down in the annals of Coleman's progress during the last 50 years. Commemorative booklets from all over the continent have heaped praise on the fine accommodations provided here. Coleman can be very proud of these efforts and to the foresight of the officers who provided the setting for this wonderful park. The dedication prayer was given by the Rev. Dykes. Master of Ceremonies John McDonald called upon Mayor Frank Abousafty to present scrolls to the senior citizen's present. A very noteworthy fact that 5 members of one family received scrolls; this is something that we believe has yet to be equalled. After presentation of the scrolls the R.C.E.M.E. Band played they are Jolly Good Fellows.

Next speaker was Wm. Kovach, M.L.A. Mr. Kovach praised the efforts of the people of Coleman and the progress that they had made in the last 50 years. He stated that the decline in the working population of Coleman during the last two years was a considerable blow to the Town but that the spirit of Coleman people was indeed wonderful. Coleman has certainly made its contribution to the progress of Alberta. We can be proud of the spirit in the Crows Nest Pass. That the Crows Nest Pass is only in the transition period. He stated further that the pioneers had seen fit in previous years to change governments hoping to free the province of overburdened debt, but that despite their efforts the province had been unable to clear these debts. So once again in 1935 the pioneers again decided to change governments and elected a new party of which I am proud to be a member. This government has succeeded in making Alberta debt free, and the efforts of those hardy pioneers to make Alberta the greatest province are in the final stages. Highlights of Wm. Kovach speech will be shown under a separate heading.

The program in the park continued with the band playing "God Save The Queen".

At 6 p.m. the Senior Citizens were treated to a banquet in the Elks hall sponsored by the Jubilee Committee. This wonderful banquet was prepared by the Ladies of the Royal Purple who donated their efforts.

Flowers for the occasion were provided by Mrs. Anne Vasek. The Rev. Dykes gave grace. Following the supper master of ceremonies John McDonald called upon Miss (Continued on Back Page)

## Coleman Senior Citizens Receive Scrolls at Jubilee Ceremony

Scrolls were presented by Mayor Frank Abousafty to the following senior citizens in Coleman's Jubilee Ceremony:

Mrs. E. Lonsbury, J. R. Kerr, M. E. Dunlop, J. Boutillier, A. Buckna, sr., Ann Dunlop, W. Hogan, W. Nelson, Umberto Zanani, A. Hammer, A. Easton, Ray Bagley, W. C. Jenkins, Mrs. A. Easton, Earl Bagley, Joe Plante, J. A. Kroesing, J. Lenord, Jim Bagley, W. Halstein, Nini Bagley, Mrs. Mabel Plante, Mrs. M. Antle, Elizabeth Bagley, E. Cowan, A. H. McGillivray, F. Wheatcroft, Bert McEwen, J. H. Boulton, Jim Williams, Mrs. E. Ash, Mrs. B. Hammer, Guy Flemming, William Milley, E. Ash, Joe Coccoloni, J. T. Lloyd, Mary Rowley, E. Kroesing, Joe Stevenson, A. Buckna, jr., and D. E. Stonehouse.

There may be a possibility that some senior citizens are not on this list of presentations. If so will you please inform us by phoning 3790 or 3705 and we will make the correction in our next issue.

## Examination Results Are Studied

At the regular meeting of the Coleman school board this week it was announced there were 74 beginners this term. The examination results showed that grade nine had 35 students last term and that out of the 35 that five had passed with honors; 29 out of the 35 were passes and that one student had failed. The high school report was very satisfactory.

The organization of the teaching staff was read and showed that the following would teach the various grades: Cameron school, grade 1, Miss Margaret Dunlop; grade 2, Grace France; grade 3, Mrs. Frances Bond and Mrs. Mary A. Woods; and grade 4, Lena Boutillier.

At the central school: Grade 1, Ruth Sudworth and Mrs. Rita D'Amico; grade 2, Mrs. Anna McLean; grade 3, Mrs. Janet B. R. Allan; grade 4, Mrs. Olga McDonald; grade 5, Mrs. Irene Coover, and grade 6, Mrs. Geraldine Montalbetti. The junior high school teachers will be Mrs. Alma Beath, head, Mrs. B. K. Graham, Mrs. B. Noble, T. J. Kryczka and Eldio Mascherin. High school teachers will comprise John A. McDonald, Aileen Mercer, S. J. Ondrus and Mrs. Gwen Cousins and Principal Horace Allen.

## Willow Drive Folks Hold Picnic

The Willow Drive Community Association held a very enjoyable picnic for the children on Sept. 1 on the lawn of Mrs. G. Horn's residence. Free hot-dogs, pop and ice-cream cones were enjoyed as well as games. Two-year-old Miss Peggy Hammer drew the lucky ticket for telescopic fishing rod and basket which was won by Mrs. Jessie Zilinski with ticket No. 692.

## O.E.S. Presents Gift To Departing Member

At the close of the business meeting of the Minerva Chapter O.E.S. on September 15 a presentation was made to Mrs. E. Pontana who is leaving shortly to reside in Calgary. Mrs. K. Pawlyk on behalf of the Officers and members of the Lodge presented the honor guest with a gift. She expressed the regrets of those present at losing such a willing and faithful worker and wished her every success in her new home. Mrs. Pontana ably responded and expressed her thanks and regret at having to leave.

CHRISTMAS ?  
NOVEMBER 26th

## "Cat" Goes Through Bridge Leading To E. K. Power Plant

A "cat" owned by the Coleman Collieries from the Tent mountain strip mine broke through the bridge spanning the river at the East Kootenay power plant.

The "cat" was on its way to build a road leading to the top of the mountain directly above the Summit Lane Works.

Friday morning repair crews were put to work repairing the bridge and it is expected that it will be ready for traffic Monday.

The "cat" is to be used in the building of a road on the old road leading to Summit Lake and on up the mountains, so as equipment for the new microwave station, one of the chain being built across Canada, can be brought in.

When completed the station will have a 300 ft. tower.

## Legion To Hold Bingo To Support Dunford Operation Fund

The Canadian Legion will hold a Bingo Nite on September 30th with the proceeds going to the Spencer Dunford Operation fund.

President J. Kulig reports that donations to this fund have been fair but there is still a considerable amount required to help defray the costs of this operation.

Spencer must return to the Mayo Clinic again in late winter months for further examinations. The cost of this operation has been tremendous and is still not finished. Your most generous support is earnestly requested by the committee. Word has come from the Lethbridge Green Acres Kiwanis Club that they are prepared to assist this fund.

It is hoped that Coleman can contribute a considerable amount to help this fund.

## C.N.I.B. to Conduct Local Campaign

The month of October will see the start of the annual campaign for funds for the Canadian National Institute for the Blind.

This will be a house to house canvass which will again be conducted by the ladies of the Order of the Royal Purple under the co-operation of Mrs. G. Ford who is a director on the Provincial Board of the Institute.

Mrs. Ford will leave on Thursday to attend the annual meeting of the Institute to be held in Calgary on September 23rd.

This campaign is well worth your support as in the past years it has done a lot for people living in this area and especially in Coleman.

## He grins when spiders spin—they help him in his work

WINNIPEG.—Spiders work for John Lewis, Winnipeg proprietor of a scientific instrument repair service and agency, reports a Canadian Press story.

When a spider spins, Mr. Lewis grins, for he uses the spider silk, the finest thread available, for "cross-hairs" on the scientific and surveying instruments he repairs. At his workshop his insect employees inhabit a row of small glass jars. An occasional leaf or dead fly helps keep spiders alive for a time.

When the spider's services are required, the eight-legged beauty is placed on a tray from which it can't escape. After a usually lengthy wait, the spider starts spinning around rectangular cardboard frames provided. These frames are revolved as the spider spins and dangles.

**On callipers**  
Short lengths of the web are then caught on the ends of callipers with shellac; the callipers are screwed open to stretch the web; and the web is stuck to the diaphragm of an army sight or levelling and surveying instruments.

Precise placing of the next-to-invisible gossamer is an extremely delicate job which may take up to half an hour. Some of the instruments require two cross-hairs and two stadia lines for determining distance.

In most modern instruments the lines are usually etched on a glass lens. But this means one or more lens to cut out light. Thus some engineers still prefer spider web. Human hair silk or nylon, although easier to work with, would look like hawser line under magnification of the instruments. Not every spider's thread is suitable for his work, Mr. Lewis says. Some web is too fine and some even twists in spirals.

The best type of spider, he has found is the black rose-bush spider. Spider silk is in reality a cable composed of many fine, individual threads.

When Mr. Lewis came to Winnipeg in 1948 he was the only man in western Canada skilled in "spider work," having learned the rare craft in England as an employee of a leading manufacturer of scientific instruments.

After the 1950 Manitoba flood, skins of spider web helped build greater Winnipeg permanent diking system. Mr. Lewis was responsible for repairing and checking all survey instruments used in constructing the dikes.

Today the spiders are still doing their part in keeping western Canada roads on track, in developing army dial sights and range-finders on the target.

## Dollar a pound on the hoof

RIVER SIOUX, Iowa.—Myron Hoff, 56, isn't sparing the calories these days because he's worth his weight in silver.

Hoff won the prize in a nationwide livestock judging contest for feed dealers and will receive a silver dollar for every ounce he registers at an official weighing-in at Chicago.

His current weight of 177 pounds is worth about \$2,800.

## Skin disease by inhalation

Inhalation such substances as house dust and ragweed pollen can cause skin disease as well as asthma in some children, according to Dr. Louis Tuft, of Temple University School of Medicine, in a report reprinted in the current issue of Health Magazine, official publication of the Health League of Canada.

Dr. Tuft was reporting on "inhaled" allergens in the American Journal of Diseases of Children, published by the American Medical Association.

He says that for many years allergic eczema, a form of skin disease, was treated like other "eczemas" and was blamed on allergic-producing foods such as milk, wheat and eggs. He said that food can cause this kind of skin disease, but that it often results from simply inhaling allergens, notably ragweed. Frequently, both skin disease and asthma are caused by the same substance.

Chief causes of the disease are house dust, plant pollens, wool, silk, dry scales from animal hair or feathers, insecticides, and atmospheric molds (particularly in the midwestern or grain areas of the country). Children may get allergic eczema from rabbits, cats, horses and dogs. While some cases may be treated by desensitizing injections like those used in asthma, the usual treatment is to remove the cause.

Dr. Tuft noted that it is even possible children may be allergic to dander in the scalps of their parents—but this has never been proved. "Until it is," he said, "one must withhold judgment."

## Home Workshop

An outdoor feature that has become a must around houses with steps leading to the garage or street level is the flood light. Other uses can be found for electric contacts that are convenient to the outdoor living area. These after-dark parties and family snacks will be taken in stride by just plugging in the periscope.

grille and whatever. There is an extra outlet for a bag light in summer. Pattern 448 illustrates each step in making the type of fixture shown in the sketch. A copy of the pattern will be mailed for 35c.

This scallop pattern has a wide range of uses as there are twelve different sizes and shapes to be traced onto the wood. These sizes range from one inch to nineteen inches in width with the correct proportions in depth. Pattern 207 also illustrates the right way to make a cornice box for single windows of various widths and a group of windows framed together. In all there are nine styles of window framing illustrated on the pattern, as well as other ways to use these scallops in interior decoration. If you want to make draw curtains order pattern 325 which also shows the best method to use in curtaining more than a dozen different types of windows. Patterns are 35c each.

Address order to:  
Home Workshop Pattern Service,  
Department P.F.L.,  
4433 West Fifth Avenue,  
Vancouver, B.C.

**SEVERAL SYSTEMS**  
For a generation before the invention of electric telegraphy, in 1832, Europe had several extensive systems for transmitting messages by means of semaphore signals relayed between towers.

Of Manitoba's total land area of 219,723 square miles, only 2,724 square miles are used for agriculture.

**PIPE THIS**—Farmer prepares to lay plastic pipe with this automatic device on a plot of land near Franklin, Pa., where the labor-saving mechanism is manufactured. Disposable pipe, holding up to 600 feet of piping are attached to the machine, which is constructed for a three-point hitch, but which is adaptable to any farm tractor, according to the manufacturer. Operating at tractor speed, it is designed to uncover a trench by pipe 14 to 20 inches deep and back-fill after itself, at the rate of 100 feet per minute.

## Pullets should not be housed with older birds says expert

If "nobody here but us chickens" meant "nobody here but us pullets" it would serve as a reminder to poultrymen when it comes to housing pullets. For it is important, says Robert H. McMillan, Alberta's Poultry Commissioner, to remember that under no circumstances should pullets be housed with older birds.

If yearlings and pullets are to be housed in the same house erect a wire partition to keep the two ages separated.

Overcrowding is one of the greatest problems in the poultry industry. The standard recommendation of 3 sq. ft. of floor space per light bird housed, or 4 sq. ft. per heavy bird is a guide.

These allowances may be reduced somewhat depending on such factors as size and shape of pen and management of flock. However, if these floor allowances are cut by much, they are cut at the poultryman's expense.

These factors are uppermost in the minds of poultrymen as they prepare for the housing of early pullets says Mr. McMillan. Before the pullets are moved from the range into the laying house the house should have a thorough cleaning and washing with a disinfectant solution. The nests, roosts dropping boards and floor should be well scraped and sprayed with the disinfectant. This is also the time to make any necessary alterations and repairs to the house.

After the fresh air of the range it is important advises Mr. McMillan to have plenty of ventilation in the laying house as a shortage of fresh air at this time may result in colts for the pullets. Screen doors and windows will provide the necessary ventilation in the laying house.

## CORONATION GOWN

BURPHAM, England.—A miniature model of the Queen's Coronation gown, which took more than 130 hours to make, has earned £21 for the Survey Volunteer Association for the Blind. Mrs. Sylvia Avenell, who made the gown, used 4,000 gold, silver and pearl buttons.

All prunes are dried plums.

Pullets well reared, fed a balanced ration, placed in a clean, disinfected, bright house will do well and produce a profit.

## Funny and Otherwise

The city boy was entranced by his first visit to the old family farm. Out exploring by himself he found several empty milk bottles in the grass.

Rushing back to the house, he shouted: "Hey, Grandma, I just found a cow's nest!"

"It's a strange thing, Jim," said Farmer Brown. "Yer allus late of a mornin' and you live right on the farm. Now Bill, here, who lives ten miles away is allus on time."

"There's nuthin' funny about that," retorted Jim. "If Bill's late in the mornin' he can hurry a bit, but if I'm late, I'm already here."

A tourist was admiring a necklace made by a Texan. "Beautiful," she gasped. "What's it made of?"

"Alligator teeth, Ma'am," drawled the Texan. "Imagine they have the same value to you that pearls have to me."

"Not exactly, Ma'am," said the Texan. "You see, anybody can open an oyster."

"What model is your car?" "This car ain't no model, it's a horrible example."

A little boy said to his mother: "Is it true that we are all made of dust?"

"Yes, dear," his mother answered. "Well, it is true that we go back to dust when we die."

"That's what the Bible says," his mother replied. "Well, I just looked under my bed and someone there is either coming or going."

## People who cannot feel pain unlucky, always in danger

There are some people who cannot feel pain. They are unlucky beings, for they are continually in danger. As children, they are usually covered with bruises and frequently burn themselves severely. As adults, internal diseases, such as appendicitis, give them no pain warning and are often not detected until they have become very serious.

This lack of pain sensations is nothing mysterious. It arises from the absence of the myriads of specialized nerve endings in the skin and within the body, which send damage signals to the tissues.

The intensity of the pain we experience is not always related to the amount of damage we suffer. It depends on the speed at which the injury occurs, or the rate at which it progresses.

For example, sunburn does not hurt the skin during the initial stages while the damage is slowly being done. But a very hot object pressed against the skin for a fraction of a second, not really and though to do any great harm, causes intense pain because the injury to the skin is proceeding very rapidly.

Scientists also distinguish between the sharp pains experienced on the surface of the body and the duller aches which usually result from internal troubles. The arrangement of pain-receiving nerve endings in the body is very "sensibly" organized. Pain-receivers are buried deep in the palms of the hands and in the soles of the feet, places which are constantly exposed to relatively unimportant painful stimuli.

On the other hand, pain spots are found deep to the surface in the areas of the neck, shoulders and groin where important structures like the large bones and blood vessels are near the surface, and therefore subject to serious injury from wounds. In these regions, quick warning of danger is important.

Certain internal regions of the body are relatively free of pain-receivers. For example, some parts of the gastro-intestinal tract are insensitive to pain, and therefore cancers and other ailments in this area frequently escape early detection.

The brain itself contains no pain-receivers, but these points are concentrated along the vital blood vessels which feed it or other neighboring structures.

In measuring the intensity of pain, doctors realize that their experiments do not give them a true picture. The severity of pain is affected by emotional factors such as the worry and concern felt by the victim in accident or a serious disease. Also, the researchers say, the expectation of relief will of itself often help to ease pain. Thus, tablets containing only sugar will provide some patients with pain relief if they believe that the pills contain a pain-relieving substance.

There are many drugs used to vanquish pain. So-called analgesics raise the pain threshold of the nerves and cause the nerve to require more stimulation before it responds with a pain signal to the brain. Local anesthetics, like procaine, deaden a nerve or group of nerves completely so that no signal can pass to the brain.

Pain as one of the most important aids to the physician in curing the sick. It alerts the victim for the fact that something is wrong with him. When the patient sees the doctor, the location and type of pain experienced frequently enable him to find and treat the cause of the distress.

The sensation of pain can rightly be called a blessing in disguise. Without it, we could not learn to avoid harmful experiences and we would often perish from diseases we did not know we had. (ISPS).

## Patterns

New color beauty

by Alice Brooks

New color beauty! Crochet these modern leaf-design dollies in two glowing colors—matched to the decor of your home. Easy—lovely!

Pattern 1377: Color-crochet dollies in modern leaf-design. Larger 16½ inches, smaller 11½. Use crochet and knitting cotton.

To obtain this pattern send twenty-five cents in coin (stamps cannot be accepted):  
Department P.F.L.,

## BEANS

Dried beans are a good source of protein and can be used as a substitute for meat. There are many ways of preparing them, from the traditional pork-and-beans to more exotic combinations. In addition to their versatility, beans have an added virtue—they are economical.

**3 tempting whole-wheat varieties from One Basic Dough!**

NEEDS NO REFRIGERATION

**Make these treats with new Active Dry Yeast**

If your family enjoys whole-wheat bread, give them not one but three treats next time you bake! See how Fleischmann's Active Dry Yeast helps you to serve a variety of tempting treats with no extra trouble. When you bake at home, make sure you have Fleischmann's on hand.

**Basic WHOLE WHEAT Dough**

**Scold**

- 3½ cups milk
- ¾ cup granulated sugar
- 4½ teaspoons salt
- ½ cup shortening

Remove from heat and cool to lukewarm. Into the meantime, measure into a large bowl:

- ¾ cup lukewarm water
- 1 teaspoon granulated sugar
- and stir until sugar is dissolved. Sprinkle with contents of:
- 3 envelopes Fleischmann's Active Dry Yeast

Let stand 10 minutes, THEN stir well. Stir in lukewarm milk mixture.

**Stir in**

- 6 cups whole wheat flour
- and beat until smooth and elastic; work in 4 cups more (about) whole wheat flour

Turn out on board sprinkled with whole wheat flour and knead dough lightly until smooth and elastic. Place in a greased bowl and grease top of dough. Cover and set dough in a warm place, free from drafts, and let rise until doubled in bulk. Turn out dough on lightly-floured board and knead 10 minutes. Divide into 3 equal portions and finish as follows:

**1. WHOLE WHEAT BREAD**  
Shape one portion of dough into a loaf and let it rise in a greased loaf pan about 4½ by 8½ inches. Grease top. Cover and let rise until just doubled in bulk. Bake in moderately hot oven, 375°, 35 to 40 minutes, covering loaf with heavy brown paper after first 15 minutes of baking.

**2. PAN BUNS**  
Cut one portion of dough into 16 equal-sized pieces. Shape each piece into a smooth round ball and arrange in a greased 8-inch square cake pan. Grease tops. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, about 20 minutes. Split rolls and fill with salad or heated wieners.

**3. SALAD OR WIENER ROLLS**  
Cut one portion of dough into 12 equal-sized pieces. Shape each piece into a slim roll 4 to 5 inches long. Place, well apart, on greased cookie sheets. Grease tops. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, about 20 minutes. Split rolls and fill with salad or heated wieners.

## Swim with a "beat"

In swimming the crawl, there should be a definite number of kicks to one complete arm stroke. Just how many depends on the individual—his length of leg, power of his arms and so on.

Swimming experts are divided. Some say the "six beat" (three kicks to each arm stroke—six for the complete stroke) is best. Others like an "eight beat".

For best results you should experiment until you find the beat that brings you the best results. Try the six, eight and even a 10 beat. Keep asking yourself: "What type of beat increases my speed?" "What beat tires me least?" and "What beat seems to make my swimming smoother and more relaxed?"

Study your needs and requirements so that you find the beat that brings you the most for your efforts in speed, endurance and style. By testing the various beats over different distances you may find that the eight beat is best for long swims while the six or even the 10 brings best results in short sprints.

If you have strong legs you may find a fast leg action beat with a slow arm action. If your arms and shoulders are strong, slow leg action and faster arm action may suit you better. But, while making use of your natural build to its full advantage, always try to strengthen your weak points and increase your all-round skill.

### For stronger muscles

A famous nutritional authority, Dr. L. Jean Bogert, has found that athletes in training need extra

protein. In his book, "Nutrition and Physical Fitness," Dr. Bogert says: "When an athlete is in training, extra protein is needed to build new muscle tissue so that he can grow stronger."

This is particularly true for the young athlete who is anxious to grow tall and husky. Protein not only helps muscle tissue development but also is a must in the growing process.

The simplest and most economical answer is to increase the athlete's intake of milk and cheese, both good sources of the best types of protein. Meat and whole grain products also are fine protein sources, but milk and milk products appear to offer the easiest solution as far as augmenting the diet is concerned.

## Stray pup top dog

NEW DELHI.—A stray puppy from a Nepalese village has qualified for the title of the world's "top dog" by climbing to 21,000 feet with the French expedition to Makalu this year.

Another village mongrel later accompanied an expedition to 20,000 feet, the black peak in the Indian Himalayas.

These are the highest points known to have been reached by any animal. Even the legendary Abominable Snowman's tracks have only been seen up to 18,000 feet, although birds have been seen higher.

The Makalu dog, a long-legged black puppy, attached itself to the French climbers at the last village before they reached the mountain. From then on, it moved and lived with the climbers, growing fat on the expedition's scraps and climbing with the team over snow and ice up to Camp III at 21,000 feet. The French leader, Jean Franco, said that it jumped over crevasses with ease and at 21,000 feet its breathing seemed normal.

A party of Indian and Burmese students who climbed the 20,000-foot Black peak last year had a similar experience with a stray dog. Jack Gibson, a British schoolmaster who led the expedition, said that the dog attached itself to the expedition at Chakras, the last roadhead on the trek to the mountain.

## TRY AND STOP ME!

By BENNETT CREEP

At the height of the social season in Washington, D.C., Sen. Theodore Green of Rhode Island, a bachelor still at 56, seemed a bit confused by it all. Over cocktails at a foreign embassy a writer asked him how many parties he was attending that evening.

"Six," confessed the senator, and pulled out his pocket diary. "Trying to figure out where you're going next," jested the writer. "Not at all," replied the senator. "I'm trying to figure out where I am now!"

There was an old preacher once, according to Henry W. Grady's famous story, "who told some boys of the Bible lesson he planned to read the next morning. The boys, finding the place, glued together the connecting pages. The next morning he read on the bottom of one page, 'When Noah was 120 years old he took unto himself a wife who was—then turning the page—140 cubits long, 40 cubits wide, built of gopher wood and covered with pitch inside and out.'"

"Naturally puzzled, he read it again, verified it, then assured his audience, 'My friends, this is the first time I ever met this in the Bible, but I accept it as an evidence of the assertion that we are fearfully and wonderfully made.'"

Mrs. Belcher warned her new maid, "I never waste words. If I wiggle my finger, it means you are to come to me immediately."

"Yas'm," agreed the new maid cheerfully, "but if I wiggle my head back it means I ain't coming."

## Vegetables good source vitamins

Vegetables are an important part of the daily diet and they deserve much more careful preparation and cooking than they usually receive. Since they are a good source of vitamins, they require very little soaking in water and there should be a minimum of water used in cooking them. They should be cooked only long enough to make them tender—overboiling spoils not only the flavor but also destroys some of the important minerals and vitamins.

**DO-IT-YOURSELF FASHIONS**—Paris, long jealous of her sects when it comes to high fashion, has at last succumbed to the do-it-yourself trend. Material for each ensemble, pictured above, comes pre-cut, together with trimmings and patterns. Styles, from left: Woolen coat with deep shawl collar and "flapper wrap" silhouette; horizontally striped wool coat-dress with matching, brief bolero; coat dress with matching stole; half-belted tweed greatcoat with high-buttoned, pointed collar.

## Concerned about sources of power

The State of South Australia is concerned about sources of power when her copolids become exhausted, experts believe this will be in another thirty-five years. Experiments are therefore being made to see how much electricity can be generated by windpower and at what cost.

Adelaide, capital of the state, is ideally situated for the conducting of experiments as the city's coastline squarely faces prevailing winds. If it is not too costly to operate, windpower will be used until atomic power is ready to fill the breach.

## Never underestimate whooping cough

Whooping cough, regarded by many as merely a childhood ailment, is one of the most serious contagious diseases that can strike a child. Many youngsters die from it. Many of those who do survive are left with impairment of lungs or brain.

Each year, Canada sets aside one week in September known as Immunization Week, in order to bring to the attention of parents, through press, radio and any other available means, a reminder to have children inoculated against this common but very dangerous disease.

## Natural underground steam main hope electricity supply for N.Z.

WELLINGTON, N.Z.—Natural underground steam has become the main hope of maintaining the supply of electricity in the North Island of New Zealand until atomic power plants can be brought into use, a Canadian Press story reveals.

The hydro-electric resources of the island are in sight of full development. Coal supplies are not large enough to maintain many power stations. Yet the demand for power is leaping higher at a startling rate.

Six years ago drilling started in the thermal area in the centre of the island in districts where geysers and boiling mud pools are a major tourist attraction. Boreholes have given excellent results—a steady supply of high pressure steam from vast natural reservoirs deep in the earth.

The first power plant, to develop 40,000 kilowatts, is now being designed. Meanwhile, a full-scale survey of the power potential from this source has been made.

Scientists now estimate there is a sure steam supply to produce 200,000 kilowatts—a valuable reserve to bridge the gap between power and the time when atomic plants and the time when atomic plants

become an economic proposition.

But it is possible that far more steam than this is available. The estimate is conservative, based on known steam supplies. The thermal region, however, extends in a wide belt from the centre of the island to the east coast. It covers hundreds of square miles.

Some authorities believe that further drilling will disclose huge additional sources of steam which will be worth developing even in the atomic power age.

## Hard working mineral

Calcium does a big job for the human body. It aids in the clotting of blood, the regular beating of the heart and the making of bones and teeth. To obtain the necessary supply of calcium, the average adult must depend upon his diet. Milk is the chief source, together with its product, cheese. Canada's Food Rules suggest that children need at least one pint of milk daily, either as a drink or in some part of their food; an adolescent needs at least 1½ pints and an adult at least 2 pints. This will not only supply calcium but also riboflavin, protein, some vitamin A, as well as other vitamins and minerals.

## WEEKLY BIBLE COMMENT

### THE BIBLE IS A LIVING, VITAL BOOK

So many books about the Bible treat it as if it were a single book, of equal truth and authority with all its parts, whereas the Bible is a collection of many books (66 in the Authorized Version).

The Bible has evolved over a long period, and reveals the progress from primitive and tribal conceptions of God to the revelations of the later prophets and the fulfillment in Jesus, concerning "the God of all grace and the glorious Gospel."

When Jesus spoke of the things that were said "by them of old time," and contrasted them with the things "that I say unto you," He was referring to things said by good men in that former time who lacked the light that Jesus was to bring.

The progressive nature of the Bible is strongly brought out when one compares the incident of Elijah and the children (Kings) with the scene of Jesus blessing the little children (Matthew).

Even the Disciples had not progressed into that larger light of the Master, for they rebuked the mothers who brought the children to Jesus, bringing upon them the Master's distinct displeasure, as told in Mark.

This is a prime instance of how the moral sense and the elements of love and compassion, which Jesus so strongly inculcated by precept and example, replaced stern concepts as expressed in earlier portions of the Bible.

When one reads the Bible in the light of the New Testament, and in the light of Jesus' teaching, the living quality of the Bible is very evident.

## Quick Canadian Quiz

- What is the origin of the name of the city of Ottawa?
- In 1939 there were 24,805 manufacturing establishments in Canada. How many are there today?
- At the 1951 census Canada's population was 14,099,000. What was the total at the time of the 1931 census?
- Which province is the leading butter producer?
- In 1949 the combined spending of federal and provincial governments was about \$250 per capita. What is it today?

### ANSWERS TO QUICK QUIZ

- About \$450 per capita.
  - 10,376,000.
  - The capital gets its name from an Indian tribe, the Ottawas.
  - Quebec.
  - Today there are more than 38,000 manufacturing establishments.
- (Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.)

## Personalities IN THE NEWS

Mr. Chris McKillop of Montreal spent a short time at the home of Mr. and Mrs. G. Zinook on Saturday on his way to the West Coast. Mr. McKillop was formerly from England. He is supervisor of the School in Montreal to which the Zinook children, Georgina and Michael are attending. He was very enthusiastic about the beautiful scenery and the wonderful country through the mountains.

The Annual United Church Bazaar will be held Friday, Nov. 18 under the auspices of the Goodwill W.A.

Herman Collings spent his vacation visiting relatives and friends in Prince Edward Island.

Mr. and Mrs. Charles MacQuarrie have returned from a two week vacation at Vancouver and Duncan, B.C.

Mr. and Mrs. John Morrison visited a daughter Minnie and their son John at Vancouver, B.C.

Rev. and Mrs. Roy C. Taylor of St. Paul, Alberta, renewed acquaintances here recently. Rev. Taylor was a former pastor of St. Paul's United Church.

The meeting of the United Church Goodwill W.A. will be held on Monday, Oct. 3rd instead of Oct. 10th.

Bandmaster Fred Beddington and members of the R.C.E.M.E. Band were treated to refreshments following the Jubilee program held in the Coleman Park on Friday. The boys wish to extend their thanks to the Kananaskis Service and the Canadian Legion for their efforts on the Bands behalf.

Mr. and Mrs. C. Denny of California, are guests this week of Mr. and Mrs. T. Holstead, Mr. and Mrs. J. Hanrahan and Mr. and Mrs. C. Wentley.

We see where two ardent fishermen from Coleman have gone fishing and according to Ernie Lant they will keep nothing under two pounds. We sure would like to know the location of this fishing spot where so many two-pound fish are to be found. Oh well we will see what Jack has to say when he gets back. (lbs. My, My.)

Further reports on that Cranbrook Jubilee Curling event in which the Chick Roughhead rink comprising Bob Campbell, Jim Ewing, W. Roughhead and Chick say that they really had a fine time, plus winning electric irons. According to reports that we hear the boys are doing a good job of ironing. This I would like to see.

Miss Delena Celli was accompanied to Edmonton by her family. Delena will be entering the University of Alberta.

Mr. J. Headberg of Calgary and formerly of Coleman is a business visitor in the Pass renewing old acquaintances.

Mr. and Mrs. B. Grant of Calgary visited here recently the guests of Mr. and Mrs. J. Moore.

Mrs. W. K. Knight of Cranbrook formerly of Coleman visited with friends here over the week-end.

At the regular meeting of the Catholic Women's League plans were discussed for the annual bazaar to be held October 8th.

Miss Patricia and Carol Nelson have left for Pincher Creek where they will attend the Convent school.

Mr. and Mrs. Ron Collins accompanied by Mrs. G. Jenkins visited Calgary recently.

Mrs. R. Vincent formerly of Coleman is a patient in a Calgary hospital. Her friends here wish her a speedy recovery.

Mrs. Agnes Ryan is a patient in the Holy Cross Hospital. Her friends wish her a speedy recovery.

Mr. W. Anderson has left for Powell River where he is employed. Mrs. Anderson and family will follow in the near future.

Mr. and Mrs. Edgar Allen and son Peter recently returned from a holiday spent at Spokane, Washington.

Miss Kay Leksmer, A. Kryzka and Peter Allen have left to resume their studies at the University of Alberta.

The new pastor of the Holy Ghost Catholic Church, Reverend Father Fleming took over his new parish Sunday, September 18.

Michael and Georgina Zinook have returned to their school at Montreal after spending the summer months with their parents. They were accompanied as far as Calgary by their mother Mrs. G. Zinook.

Adele Zinook who has spent the summer months at Banff is spending a few days here with her parents before leaving for Calgary to attend business college.

Miss Marie Faville has secured employment at the local Post Office.

Mrs. Vi Tiberghien has accepted a position with Freeman's Ltd.

Mr. and Mrs. Ed. Wood have returned from a holiday at the West Coast. They visited there with Mr. Wood's parents Mr. and Mrs. J. Wood of White Rock, B.C. They also visited at Kelowna with Mrs. Wood's parents Mr. and Mrs. Mark Satoris.

## Scholarship Awards by Hotel Assn.

Three Jubilee Scholarships and 53 major awards to grade XII graduates of Alberta high schools, all tenable at the University of Alberta, were announced, this week by A. G. Swinarton, president of the Alberta Hotel Association.

Regular scholarships are awarded each year by the Hotel Association to assist students academically qualified for entrance into university. They are based on financial need and academic standing.

This year three special scholarships valued at \$1,000.00 each were awarded to students in Edmonton, Clyde and Taber to commemorate the fiftieth anniversary of the province. These are in addition to the regular presentations:

Judith Carol Sather, 13116 - 122 Avenue, Edmonton, daughter of Mr. and Mrs. B. A. Sather, graduated from Westgate High School with an average mark of 92. Miss Sather, winner of the Governor General's Medal in grade VIII, will study in the faculty of education on one of the Hotel Association's Jubilee Scholarships.

Margaret Alice Rife, daughter of Mr. and Mrs. George E. Rife, of Clyde, will also join the faculty of education on a Jubilee Scholarship. Miss Rife is a graduate of Westlock High School with an average of 89 and is an active member of the 4-H club in that district.

At Taber, Robert Kazuo Teshima, son of Mr. and Mrs. N. Teshima, won a Jubilee Scholarship award with an average mark of 91. He will study chemical engineering at the University of Alberta.

(See attached list for scholarship winners in circulation area).

Three applicants who did not receive scholarship awards were granted financial assistance under the association's special fund to continue their higher education at the University of Alberta. They were R. A. Sheppard, of Edson, faculty of education, \$300; C. F. Wehrhahn, Mountain View, faculty of agriculture, \$300; and R. S. Patterson, Fort Macleod, faculty of education, \$300. Two other awards were made from the special fund to Victor L. Humannik, of Musidora, attending grade XII at Two Hills High School, \$100, and Helen Morton, of Innisfail, attending grade XII at Innisfail High School, \$100.

Approximately 400 applications

were received by the Alberta Hotel Association from students throughout the province. Each application received careful study by the scholarship selection committee composed of Mr. Swinarton; Chief Justice C. C. McLaurin, Calgary; Rt. Rev. George Calvert, Bishop of Calgary; Father P. O'Byrne, Clareholm; Dean R. M. Cameron, Registrar Department of Education; B. J. Knowles, Port Saskatchewan; Senator Donald Cameron; and Fred Thomson, executive secretary, Alberta Hotel Association.

## Cancer Society Sponsors Contest

The Alberta Division of the Canadian Cancer Society has announced that it will again sponsor a Cancer Scrapbook Contest in Alberta schools.

As in the past, cash prizes totalling nearly \$1,000.00 have been donated by a group of Life Members of the Society who annually give funds for this purpose.

The Competition will require the students to depict, in scrapbook form, the "Cancer Problem" and "Cancer Control", using cuttings from newspapers, magazines and other printed material.

The prize list in each of the Society branch area comprising Calgary, Crow's Nest Pass, Drumheller, Edmonton, Grande Prairie, Lethbridge, Medicine Hat, Peace River, Red Deer and Vermilion, consists of 1st, 2nd, 3rd, 4th prizes of \$10.00, \$5.00, \$3.00 and \$2.00 respectively in Grades V and VI, Grades VII and VIII, Grades IX and X and Grades XI and XII. Following the Branch awards, Grand Prizes will be awarded for the best entries in the same classes in the entire Province. The closing date for entries is 15th March 1956.

Posters giving details of the Competition have been supplied to all schools in the Province. Teachers or pupils who do not receive posters and other information relative to the contest may secure them from Mrs. K. Kerr, Frank, Alberta.

## Interesting Notes From The Pass

Forty years ago an advertisement asked for the services of a doctor for the Coleman mines. There are 240 men each paying \$1.50, this to include attendance, medicine, and hospital accommodation. Added is the injunction that the applicant will have to be a good surgeon. (Editor's note: Oh, how we wish that is all we had to pay today for the same service.)

From 30 years ago we see where a report that the coal market is improving and that Blairmore miners are working steady. It is believed the improvement is due to the new sales policy adopted

## Notice To Creditors and Claimants

Notice is hereby given that all persons having claims upon the Estate of the above named TROPIM (TROPIN) BELIK who died on 9th May, 1955 are required to file with the undersigned by 28th October, 1955 a full statement duly verified of their claims and of any security held by them, and that after that date the Administrator with Will annexed will distribute the assets of the Deceased among the parties entitled thereto having regard only to the claims so filed or which have been brought to his knowledge.

Dated at Land Titles Bldg., Calgary, Alberta, 8th Sept., 1955.  
P. L. QUINTON,  
Deputy Public Trustee.

by the mines in sending out salesmen to the various parts of Western Canada.  
(We certainly could use some type of super salesmen today to bolster our mines.)

## Two Coleman Men Pay Assault Fines

Two Coleman men Edward Churla and Edward Churla Jr. appeared before Magistrate F. S. Radford charged with assaulting Stanley Janukowicz on Saturday, September 3. According to evidence presented it appeared that the two men entered the home of Janukowicz around midnight and assaulted Mr. Janukowicz. Magistrate Radford fined the two men \$35.00 and costs each.

## There'll never be another editor like the famous Bob Edwards

Many are the stories told about the fabulous and eccentric Bob Edwards and his famous Calgary Eye Opener published back in the early twenties. Charlie Clark, of The High River Times, (successor to the original Eye Opener), has told his share in bits and pieces.

One of the most revealing recollections of Edwards and his characteristics, however, was related by W. E. "Bill" Ross, director of public relations and advertising for Calgary Power Ltd., at the recent convention of the National Editorial Association — when the United States publishers convened at Banff.

"The only word I can think of to describe this person is 'fabulous'," said Bill Ross in his talk, as reported in the National Publisher. "There will never be another like him and there will never be another paper like the one he edited."

Edwards was a short, squarely built man of solemn expression, and sombre suits. He wore a wing collar and a black moustache. He feared no man and he produced the best Canadian periodical of his time.

He was born in Edinburgh, Scotland, in 1864 and was educated at Edinburgh and Glasgow Universities. His maternal grandfather was the founder of the famous Chambers publishing firm of that city. He often used to say "If my mother had been a gentleman I would have been head of Chambers publishing house today."

### Violated All Rules

The Eye Opener was published in Calgary from 1904 to 1922 at irregular intervals, whenever the mood struck the editor who was also the entire staff. There were perhaps 500 issues, many of them lost forever.

Its contents skirted libel, its advertising surprised the advertisers and it rarely contained any news. Ridicule of stuffed shirt authority was a trade mark and the popularity of its editor was its stock and trade.

It violated every rule taught modern students of journalism, and it reached a circulation of 30,000 at a time when 7500 was considered good for western papers.

Its influence was enormous though weeks might go by when the editor was on a tear without the paper appearing. "Everybody has a favorite bird," Bob Edwards once wrote to explain the paper's absence from the stand. "Mine is the bat."

Ridicule by The Eye Opener was enough to bring the Hon. Viscount R. B. Bennett, later one of Canada's prime ministers, to his knees. Bennett was solicitor for the CPR which once tried to ban The Eye Opener from its

train. Edwards went to Bennett, who promised to rectify the trouble. Nothing happened.

Then for a number of weeks The Eye Opener appeared with pictures of terrible train wrecks always captioned "Another CPR Wreck". After several weeks there appeared a picture of R. B. Bennett.

The caption was unchanged. — "Another CPR Wreck". The future prime minister and viscount took the hint and train travellers were soon able to read The Eye Opener.

Edwards kept his office in his head. He lived and worked in a single room where on a big roll top desk covered with a welter of papers he would inscribe his ideas in precise shorthand, chuckling as he wrote.

He gave no receipts and kept no books. He never had a printing press but jotted the paper out to various printing plants in the city.

He ran advertisements if he liked the merchants. Sometimes several issues would run by containing an ad without the consent of the advertiser. Then one day Edwards would amble in and say to the merchant "You owe me so much if you feel like paying." There is no record of anyone failing to pay.

### Libeled Premier

Once he ran item: "The Three Biggest Liars in Alberta are — Robert Edwards, Gentleman; the Hon. A. L. Sifton (then premier of Alberta); Bob Edwards, Editor of The Eye Opener." Sifton was reported to have consulted his lawyer and ordered him to sue for libel.

Edwards, on hearing this went to the same lawyer and demanded that he as Robert Edwards, Gentleman, be permitted to sue Bob Edwards, Editor, in a joint action with the Hon. Mr. Sifton. The action was dropped.

Edwards attacked professional boosters, stuffed shirts, all governments in power, politicians, monopolies, railway grabs, subdivision sharks, lumber combines, civic pleasure jaunts, and all tinsel and show. But he thought well of cowboys, hired man, bar-keepers, The Salvation Army, hospitals, children, operatic music and the future of the West.

His first career as a newspaper man in Canada started in a little town called Wetaskiwin. Here the robust impertinence of his editorials soon rocked the town with mirth.

In one report of a meeting of the town council he noted that the village fathers had been debating what size of cemetery would be needed and had decided 10 acres — five acres for each of the town's doctors.

He moved around quite a bit after opening a paper in Leduc, at

Strathcona and in 1902 went to High River. At High River he announced to the citizenry that he would provide a good family paper for \$1.50 a year. If the other kind of paper was wanted, he said it would cost \$2.50.

Edwards was highly amused by the "sassy" columns of the orthodox press, so he had one of his own. Spiritually social items such as this appeared: "Maude De Vere of Drumbeller arrived in the city Wednesday afternoon and was run out of town Wednesday night. It is a pity Miss De Vere is not a race horse. She is very fast."

Although Edwards' bookkeeping was casual, his paper was produced with almost loving care. Examination of copies shows that rarely if ever did a mistake slip through. The grammar was carefully correct.

### Fictitious Characters

His wit conceived many fictitious characters, whose names appeared in The Eye Opener. One of the most delightful characters was Albert-Buzzard Cholomondely son of Sir John Buzzard Cholomondely, Skookingham Hall, of Skookingham, Hanis, England.

Albert was a remittance man who resorted to various stratagems to get money from home. Correspondence from Albert to his father appeared periodically in The Eye Opener. From The Peace River Albert wrote: "I am now happily married to a half-breed and have three bronze-colored papooses — your grandchildren, dear father. We are going to visit you at Christmas when you will be having your annual big house party at Skookingham Hall. My wife is most anxious to meet her husbands people and the better element of English society."

"If I only had about 8,000 pounds I would invest it in the cattle business and forego the pleasure of a trip home. But I do not know where I could lay my hands on such an amount. Dear old dad, I know you will be glad to see your affectionate son, Bertie."

Another of Edwards' citizens was Peter McGonigle, editor of the Imaginary Midnapore Gazette. Midnapore being a hamlet of about eight souls including dogs. Once an Eye Opener story appeared about McGonigle's coming out party after a term in jail for cattle rustling. In the article Edwards ascribed to various public personages — including the mayor — words of tribute to McGonigle.

The Edwards legend has been weaving itself into the mythology of the last great West ever since the clear wintry afternoon of November 17, 1922, when hundreds of Calgaryans, great and humble, trooped behind the scarlet Mountie pallbearers who bore his coffin up the snowy slopes of a foothills cemetery.

—The Canadian Weekly Editor.

## ---Weddings---

### Hibbert - Hibbert

A quiet wedding was solemnized in St. Luke's Anglican Church, Edmonton, on Friday evening, August 12, when Miss Winnifred Hibbert pledged marriage vows with Mr. John Burrell Hibbert. Reverend Canon Wallis officiated at the ceremony for the youngest daughter of Mr. and Mrs. W. J. Hibbert of Edmonton and the only son of Mr. and Mrs. Thomas Hibbert of Edmonton (formerly of Bellevue).

Given in marriage by her father, the bride wore a dressmaker suit of dove grey with white accessories. Her only jewellery was her grandmother's pearls. She carried a white prayer book with a cascade of Sweetheart roses.

Mrs. Georgina Smith, wearing a navy blue suit with white accessories and a corsage of deep pink carnations, was her sister's matron of honor. Mr. J. D. Smith was best-man.

At a reception held at the home of the bride's parents, Mr. Phillip Christophers proposed the toast to the bride.

Mr. and Mrs. J. Hibbert will make their home at 10521 - 85 Ave. in Edmonton.

### Anniversary of Battle Of Britain

Last Sunday marks the 15th anniversary of the Battle of Britain.

No special services were planned to commemorate the battle in which 47 Canadians lost their lives. However, to Britons and to the survivors of those who gave their lives, the Battle of Britain will never be forgotten.

During the dark days of 1940 when the skies over the British Isles were filled with the German Luftwaffe continuously, a handful of British and allied fighter planes blazed a path to freedom in the face of heavy odds.

**LADY BADEN-POWELL**, widow of the founder of the Boy Scout and Girl Guide movements, takes the wheel of a firetruck at Montreal Airport where she stopped off en route to Niagara-on-the-Lake, Ont., for the opening of the World Boy Scout Jamboree. Surrounding her are games and brownies of Lakeshore troops, who formed a guard to welcome her. Lady Baden-Powell flew here from London.

**UNITED STATES FARMERS IN RUSSIA**—D. Gale Johnson, second from left, former farmer and now an economics professor at the University of Chicago, lets Russian grain run through his fingers as he chats with women workers who help operate a collective farm in the Russian Ukraine. Fourth from left is Ralph Olson, Elkworth, Iowa, farmer. Johnson and Olson are members of the United States farm delegation which made an exchange visit to Russia while their Soviet counterparts were visiting this country.

**FINANCE MINISTER'S daughter** as waitress—Margaret Harris, as she appears in her role as waitress at a resort in Bobcaygeon, 40 miles northeast of Peterboro, Ont. It's not that her father Finance Minister Harris, is "broke" but only that 16-year-old Margaret had a "yen to be on my own."

**TOP SHOT IS CARRIED ALOFT**—L. Gilmour S. Boa, 31, of Toronto, is chaired by fellow competitors after winning the Governor-General's match at the 73rd annual Dominion of Canada Rifle association meet at Connaught ranges at Ottawa.

**CATCH!** Conductor on the Long Island Railroad has just tossed a newspaper skyward at Locust Valley, N.Y., which will be caught by "Rusty," pet collie of the signal-tower operator.

**GOT IT!** "Rusty," pet Collie of Long Island Railroad's signal tower operator at Locust Valley, N.Y., catches paper for her master tossed off by conductor of a passing train.

**LOTS OF "PLUCK"**—Cathy McCartney, 4, of Des Plaines, Ill., plucks a tune on a huge banjo at a music industry trade show in Chicago, where news of national revival of interest in the banjo made sweet music to the instrument makers' ears.

**GRANDMA FORGOT SOMETHING**—State Trooper Roger Hutchison, 4, of Waterville, Me., has no yen for a coonskin cap—he's been outfitted by Grandma in a uniform just like the one worn by his dad, Trooper John Hutchison. Grandma didn't forget a thing—she thought. Even remembered to attach insignia to the collar. Jus one more thing is needed, Grandma—the Sam Browns belt.

**RIGHT-WINGER**—Ultraconservative right-winger gives photographer the bird during a harrnyard harrange in Kansas City, Mo. There's no danger of her winding up in the pot, political or otherwise, as this Arkansas Pryor was born with only the one wing, and has been purchased as a mascot by owner of a wholesale egg concern.

**ALL "TIRED" OUT**—There's no air in the tire and no "oomph" in the polar bear. "Brumus," clown prince of London's zoo, finds that the hottest English summer in years is too much for him and takes his favorite toy to bed while he naps in his nice, cool pool.

**IT JUST WASN'T THIS DOG'S DAY**—Hurricane Connie dumped eight inches of rain on Baltimore, Md., flooding many parts of the city. This dog looked like everyone felt as he floated down one of the city's main thoroughfares on a piece of lumber during the flash flood.

## OUR COMPLETE SHORT STORY—

## THE SIGHTSEERS

By JACK GARLINGTON

ALoud Steve said "the big building's the Aquarium," but to himself he said "there's something fishy about this."

Nothing looked fishy in a young man riding around with a pretty girl in a blue sport coupe, showing her the sights. But somehow Steve felt ill-at-ease, as if there were something he needed to know.

He had met Helen that morning. He was sitting in the hotel lobby sunk in the depths of an easy chair and the realization that Elaine—lovely Elaine with the quizzical eyebrows—wasn't going to come. It was eleven thirty, and their date had been set for eleven fifteen. Steve wondered how to pass the weekend in a strange town.

Then Helen walked in. She glanced around, shyly, and at the same time poised.

"Are you waiting for someone?" he asked.

"Well," she said, gazing at him with brown eyes, "I'm looking—"

She paused, and he filled in: "Looking around? I make a good guide."

"Yes," she said, definitely, "I'm looking around."

"Good," he invited her to a seat and introduced himself.

"I'm Steve Laramie," he said.

Attendance at museum over 100,000

REGINA.—Attendance at the Museum of Natural History in Regina has passed the 100,000 attendance mark since the official opening May 16.

Museum Director F. G. Bard said average daily attendance at the edifice built to honor Saskatchewan pioneers is about 1,000.

At the close-up Aug. 16, total attendance was 100,900. Of the total attendance passed through the doors of the blue-colored Tynndall stone building, 79 were groups averaging about 50 viewers.

Mr. Bard said that on May 16, the day Governor-General Vincent Massey dedicated and officially opened the museum, the attendance was 2,500. This figure included His Excellency, invited guests and visitors.

Sunday registers are indicating largest attendance figures with an average 3,000 viewers. The largest attendance date was Sunday, June 26, when 4,808 persons toured the museum. This was followed by July 10, when tourists totalled 4,156. Largest attendance month was July when 38,077 persons toured the building.

Mr. Bard reminds those interested in viewing the Museum of Natural History of the summer touring hours in effect. They are: Monday through Friday—10 a.m. to 5 p.m.; and 7 p.m. to 9 p.m. Saturday, Sunday and holiday schedule is 2 p.m. to 5 p.m. and 7 p.m. to 9 p.m.

A wallaby is a small kangaroo.

"Harriston's leading tourist guide." Then he asked a few questions, to all of which she replied vaguely. Finally: "Wouldn't you like to see something beside a row of synthetic marble pillars and the captain of the bell-hops?"

"Why—" she seemed undecided—"Are you sure you're not waiting for someone?"

"No," he said truthfully, "I'm not busy."

As he escorted her to the car he found that her name was Helen Trent and that she loved to dance.

He also found that she had soft hair and a warm voice, and a way of looking at him like the scent of laughter in the air.

Well, it didn't matter. She was a marvellous companion. She didn't talk much, laughed when he said something amusing, and said "oh" in all the right places.

"Harriston's the biggest inland barley shipping centre in the state," he said, repeating Elaine's words of the day before.

"Oh," said Helen.

He took her to the Cathedral, the Old Market and the spot on the river bank where John G. Harriston, some 50 years ago, had found a huckleberry bush just like the one in front of his Virginia home, and set up a trading post.

He took her along the river front and the industrial district, with the new ice-cream cone factory.

"Largest ice-cream cone factory this side of the Mississippi," he said.

"Two hundred thousand single cones per day," he added, "and fifty thousand doubles."

At the War Memorial he pointed out several of his buddies whose names shone out from the list.

Well, several of his buddies were listed on war memorials; did it matter that none of them were Harriston's?

"My," said Helen, "you certainly know Harriston well. Have you lived here long?"

"Yes," he said, "—terday this park would have been so crowded we would have had to detour."

No, he hadn't lived in Harriston long. Only since Wednesday, to tell the truth. The company had sent him out to set up a branch office, and he had arrived not knowing a soul.

He had fixed that, though. After registering at the hotel he had walked down the Main Street, and it was then that he met Elaine. She worked in a book-store, and he had had to buy a dictionary before he could make her realize that he was a person rather than a customer. Then he made two witty remarks and colored his features with loneliness before she would show him the town.

Helen didn't need to know that, of course. It might make her distrust her guide, which would be unparliamentary to Harriston.

"Are you going to be in Harriston often?" he asked as they started to share a soda.

"Why—yes," she said. "I suppose I will—yes." And she had looked at him with the word "now" in a way that stopped his visions of a lonely time in a strange town.

They went on their way and watched the sailboats on the lake, looked over the view from Look-out Point, and bought cokes from a peddler by the river. Steve got out of the car to shoe a goose back into the water, but the goose reacted oddly. It hissed like a split bellows and expanded to almost twice its normal size. In effect the goose shooshed Steve back in the car.

Then he glanced at Helen, and saw her smiling at him as if to say: "I'm laughing at a joke you know and at you don't."

That was why, as they drove out of the park, he suggested to himself that the Aquarium might be fishy.

"I live just around the corner," he said as they drove down Laurel Street. "Do you mind if I stop by for the mail?"

"No, not at all."

He pondered the problem as he pulled up to the curb and walked to the mailbox. Something was wrong. A man might go down to the drugstore just for an evening's talk, but a woman didn't lift an eyebrow that there wasn't a man or a plan on the end of it.

No, Helen hadn't wandered into the hotel lobby just to look around. Had someone stood her up, as Elaine had him?

Boy, he thought as he took a note out of the mailbox, anybody that would stand up Helen must have been petrified from birth.

"—married—ring at the jeweler's—" He read the note by phrases, still thinking about the brown eyes he saw watching at the curb. Suddenly his attention came to a full stop.

"So I'm sending a substitute," the note read, "my sister Helen. I'm sure you'll like her, and maybe she'll show you around some more. She's lived here 15 years."

A TRADITIONAL SPANISH MANTILLA inspires a new fashion idea for summer and Anna Maria Alberghetti shows here how beautiful the mantilla can look on extra special occasions. It can also be worn as a stole, and it makes an ideal evening wrap in hot weather. The ball gown worn by Anna Maria is in tea rose yellow and has a romantic decollete neckline with pretty ruffled sleeves.

## Dusty warehouse at London dock has floor of new and old ivory

A dusty warehouse at St. Katherine's Dock, in the Port of London, contains an Ivory Floor over which Mr. Alfred Yates has presided for 30 years.

In this strange place elephants' tusks, rhinoceros' horns, the wick-

ed-looking horns of the wild boar and the teeth of hippopotami are piled everywhere. Mr. Yates' job is to grade and value this ivory as it arrives from the ships and before it is sold.

Elephants' tusks are solid but the roots are hollow. The hollow sections are used to make brackets and the carved backs of brushes and the solid parts are sawn into lengths for use in the making of such things as boxes and piano keys.

Mr. Yates can tell by looking at a tusk, the animal's age, whether it is a cow or bull elephant and from what part of Africa or India it originally came. If it is healthy—the color is an indication of this—it may be sold at 20 shillings for every pound of weight.

Two tusks to be seen just now on the Ivory Floor are those of mastodons, the immense forebears of the elephant that roamed the plains of Russia and Europe before the Ice Age.

Originally many of them were caught in the advancing ice and either fell into the glaciers or were frozen into the earth. The ones that fell into the glaciers have been perfectly preserved all these thousands of years and are frequently found by the Russians when the ice melts round the Bering Straits in northern Siberia.

The tusks are sent to London and are auctioned as ordinary commercial ivory, in spite of their great antiquity.

10 Technicians each performer

Televiewers sitting at home in their living rooms probably aren't aware of just how complicated the TV program they are watching really is.

Spotlight seems to consist solely of one or two men chatting away quite casually. Cabaret doesn't seem terribly involved—just a singer or dancer or two—on the screen at a time. Sports Parade looks like the corner of the average rumour room or den with all the goings-on very relaxed.

But there's more to a TV show than meets the eye.

Television programs, on the average, require the services of at least 10 times the number of technical people as do radio programs of similar type and length. Though the number of actual performers might remain constant, additional technical and program staff are required to permit the audience to see as well as hear their favorite programs.

Penguins are found exclusively in the Antarctic.

THE TILLERS

## Rosetown will have automatic telephone system Sept. 27

REGINA.—The eleventh completely automatic telephone exchange to be installed in Saskatchewan during the past six years, and the 21st dial exchange centre in the province will go into service at Rosetown at 11 p.m. (MST) Sept. 27.

S. R. Muirhead, telephone's general manager, said the change-over will replace the present magneto equipment with a new six-position toll switchboard, which provides for 700 local lines, 100 business rotary lines and 50 rural lines. Ringing equipment can be so designed for the rural lines that up to 20 subscribers can be served on each.

Contract for the new exchange was let to Shogunat Construction Ltd., Saskatoon, at a contract price of \$82,500. In addition to the building, automatic equipment priced at \$105,000 is being supplied by Siemens Brothers (Canada) Ltd., the parent company of which is in England, suppliers and installers of the magneto equipment in the old exchange which was built in 1927.

Mr. Muirhead added that at the present time, cable work in Rosetown and installation of new dial telephones in the agas are being completed, and will add considerably to the cost of the construction.

When the change-over is completed, only cradle type dial telephones will be in use in the Rosetown exchange area. The exchange presently provides switching services for six rural telephone companies. They are Anglia, Fortune, Halcen, Ruidolph, Rosetown North and South Rosetown.

Mr. Muirhead said the \$188,500 change-over building has, steel joists, concrete floors and roof, and tile walls faced with Estevan buff brick. It is 46 feet wide and 55 feet long with provisions for further extension if necessary. The main floor will house the switchboard, operator's quarters and dial equipment. The power plant and ringing equipment will be located in the basement.

A toll office was opened at Rosetown on Nov. 16, 1910, with C. B. Marks as the first agent. A new exchange building was erected Oct. 25, 1912, with N. V. Wilson as agent of the 76-subscriber service. The present exchange was erected in 1927.

Mr. Muirhead said the conversion of the Rosetown exchange to automatic service is another step toward a completely dial operating system and would bring more and better telephone service to the Rosetown exchange area.

He said other exchanges converted in the past few years are Melville, Assiniboia, Moosomin, Biggar, Watrous, Weyburn, Nipawin, Tisdale, Kindersley and Estevan.

CLEAN HANDS FOR GOOD HEALTH

Cleanliness is next to godliness, they say. It is certain one of the ingredients in a good health plan. Disease germs may be collected on dirty hands, and from there transferred to the mouth with food. Every adult should make a practice of washing his hands before eating and every child should be trained to do so before he eats meals or even a between-meal snack, and always after visiting the toilet.

ABSINTHISM

Absinthe is the only alcoholic liquor whose excessive use produces a diseased condition that has been given a name of its own—absinthism.

Rye shatters easily when ripe and for that reason swathing when the crop is in the late dough stage results in higher yields. Straight combining of rye is not recommended.

Fall rye is an important cash crop on land that is of doubtful value for the production of wheat.

MAGIC BAKING POWDER

Butterscotch-Pecan Cookies

Grease cookie sheets. Preheat oven to 350° (moderate). Mix and sift twice 2 c. once-sifted pastry flour or 2 1/2 c. once-sifted all-purpose flour; 2 tps. Magic Baking Powder and 1/2 tsp. salt. Cream 3/4 c. butter or margarine and gradually blend in 1 1/2 c. lightly-packed brown sugar; add 2 well-beaten eggs part at a time, beating well after each addition; mix in 3/4 tsp. vanilla and 3/4 c. chopped pecans. Add flour mixture to creamed mixture part at a time, combining thoroughly after each addition. Drop dough by spoonfuls, well apart, on prepared cookie sheets; flatten with the floured tines of a fork. Bake in pre-heated oven 10 to 12 minutes. Remove from pan immediately. Yield—6 dozen cookies.

## Coleman Jubilee

(Continued from Page 1)

Anne Bodisch accompanied by Bert Bond at the piano to sing "God Bless This House". Other entertainment was provided by W. C. Jenkins one of the oldest Senior Citizens who brought the house down with his rendition of "The Old Mill Stream and Alabama". Another oldtimer of Coleman Harry Drew treated the assembly to another fine example of singing.

J. R. Hill, president of the Lion's Club was called upon to present scrolls to some citizens who were unable to attend the presentation in the park. Other speakers were Wm. Holyk, president of the Board of Trade and Geo. Jenkins Chairman of the Jubilee Committee.

Main speaker of the evening was Mayor Frank Aboussay who stated "I am very glad to be able to see and speak to you this evening. The selfishness among the older people was what made this wonderful country. More was made of sociability in the older generation than will ever be seen again. Mayor Aboussay also stated that there was nothing more interesting than the history of Alberta, he went on to state numerous stories

of his observations while living in this province for many years. On behalf of the oldtimers Mr. Joe Plante and Mr. Harry Boulton said a few words of thanks.

## Takes Life By Reaching 30 Feet To Power Line

BLAIRMORE — An unemployed Blaimore coal miner took his own life about 4 p.m. Wednesday by deflecting 69,000 volts of electricity from a power line through himself.

R.C.M.P. term as suicide the death of the 58-year-old man known as Victor or Bruno Dudas, a bachelor.

The method he used to deflect the electric current almost caused injury or death to some school pupils on a nature study hunt near here.

According to police, Dudas tied two slender poles together, ran a wire along them and then reached 30 feet from the ground to the high voltage line of the East Kootenay Power Co. Ltd.

Impact of the charge caused instantaneous death and threw the wire from the poles around a bar-

wire fence.

Only minutes previously, Mrs. J. F. Gray, Blaimore Grade 4 school teacher and 29 pupils had crossed the fence.

Mrs. Gray said the students noticed smoke rising and told her. At the same time "crackling and popping noises" were heard. The teacher thought some one was firing a gun and told the students to sit on the ground.

Approaching the fence she noticed a small fire near a pair of telephone poles. She and her pupils started for a nearby house to report the fire.

Jerry and Charles Slopek, Blaimore residents passing by, were called by Mrs. Gray. One of them went to a mine for help.

No Inquest

Mine electricians rushed to the scene and Dudas was removed. R.C.M.P. of the Blaimore detachment and a local doctor arrived and pronounced the victim dead. Coroner Dr. E. J. Lesiemer said no inquest would be held.

Born in Czechoslovakia, Dudas came to Canada in 1926 and worked in the Nova Scotia mines. He

later farmed in the Peace River district and worked in coal mines at Drumheller.

He lived in Blaimore since 1942, working as a miner and lumberman. He also worked as a bull cook for a construction company and has been unemployed for about a year.

He has a wife, two daughters and a son in Czechoslovakia and relatives are believed to be living in Calgary.

## Film Council Makes Plans New Season

BLAIRMORE — The Crow's Nest Pass film council met in the forestry offices in Blaimore Monday evening to form plans for the forthcoming winter season. Representatives of various organizations and the members of the clergy were in evidence.

With John Curry of Hillcrest in the chair, the council adopted a new system of membership whereby the fee was increased from \$10 to \$15. Under the former fee the

membership units were allowed to use up their fee through rental of the projectors and films available. With the new system the membership groups are entitled to one showing each per month and the opportunity to show as many films as desired at the showing. By doing this each organization or member can have ten showings per year with as much film as is wanted.

The meeting decided to send letters to former members of the Film Council stressing the fact that last year's members would have priority for dates for showing providing the membership was renewed.

## Music Bd. Present Two Silver Medals To Blaimore Lad

The Scholarship committee of the University of Alberta committee on Music announces that David Costigan, son of T. J. Costigan, of Blaimore, has been awarded a silver medal in grade II pianoforte and a silver medal

in grade II violin.

The awards will be presented at recitals by selected candidates in various centres in the province this fall. In the Lethbridge district and including the Crows Nest Pass there were only six silver medals awarded this year.
